## Appendix A - About this Report

Please be advised of the following regarding this report:

1. This report seeks to highlight a subset of Patent Attorneys and Agents having expertise that aligns well with the position described in the Attorney/Agent Description.
2. This report is a Custom Report as defined by our Terms of Use, which may be found here: <http://thepatentbox.com/terms>. Please take note of the limitations of reports generated using our proprietary database of Public PAIR data with respect to completeness and accuracy.
3. The information that appears in this report may not have been reviewed by the listed candidates. This report may include a list of patent assignees associated with each listed candidate. These are companies that have had an ownership interest in the patent applications in our database that each candidate appears to have prepared or prosecuted. Since ownership may change over the life of each patent, the listed assignees are necessarily current or past clients of each candidate.
